Address

KMUTNB, Bangkok, Thailand

EDUCATION

Bachelor of Science in

Mathematics with Computer Science (MC)

King Mongkut's University of Tec
hnology North Bangkok

2024 – Present

EXPERTISE

- Programming (HTML/CSS, JS, Python, C++, SQL, R)
- Mathematical Modeling & Calculus
- Network Protocols (DNS, IMAP, POP3)
- Version Control (Git & GitHub)
- Data Structures & Algorithms
- Analytical & Problem Solving

LANGUAGES

- Thai (Native)
- English (Intermediate)

THANAPHOOM PHROMKARUN

MATHEMATICSWITHCOMPUTERSCIENCE STUDENT

ABOUT ME

A highly motivated Mathematics and Computer Science student (MC) at KMUTNB with a strong foundation in logical reasoning, data communication, and quantitative analysis. Passionate about applying mathematical concepts and modern web technologies to build efficient software solutions and manage network architectures.

ACADEMIC PROJECTS

2026 | GitHub Pages & Cloud Domain & Web Hosting Setup

- Configured custom repository and sub-domain routing on GitHub Pages for static website hosting.
- Designed and deployed responsive card-based resume web applications using HTML5 and CSS3 for academic evaluation.

2026 | IMAP / POP3 / Outlook Email Client Integration Project

- Configured university mail accounts on desktop mail clients using secure IMAP/POP3 protocols with SSL/TLS.
- Implemented automated email signatures with institutional branding, custom email headers (CC/BCC), and filtering rules.

2025 - 2026 | Python, R & SQL Statistical Data Analysis & Modeling

- Applied mathematical modeling and statistical methods to analyze datasets and visualize key trends.
- Developed structured algorithms and database queries to process and manage academic data efficiently.

TECHNICAL COMPETENCIES

Relevant Coursework

Data Communication (DN 2026)

Discrete Math

Data Structures & Algorithms

Database Systems (SQL)

Numerical Analysis

Probability & Statistics

Object-Oriented Programming

Linear Algebra

Network & Protocol Configuration

Hands-on experience with DNS management, HTTP/HTTPS web hosting, and email transfer protocols (SMTP, IMAP, POP3).

Software Development & Engagement

Proficient in clean, maintainable code in Python, C++, and Web Tech with Git version control. Active participant in KMUTNB workshops.
